EXECUTIVE SUMMARY

If you are looking for someone to manage your computer and networking needs, then I am the perfect candidate. One full-time network administrator might cost 30k-75k per year. I can provide a team of seasoned technicians, at your beck and call, for under \$12k per year. I also provide my own technology to manage your network and add value to my service.

- ♦ My employment comes with guaranteed protection from Viruses of any kind including Adware, Spyware, Malware, and Trojans.
- ♦ I will protect your network with the best firewall my own money can buy and I will monitor your network traffic 24/7 for any anomalous events.
- ♦ I will carefully govern employee access to the Internet with usage policies that protect them from the evils of the Internet and provide reports showing every Internet Site visited by any user on the network.
- ♦ I will resolve any SPAM problems you have from both the sending and receiving perspective.
- ♦ Authorized remote users will have access to company resources from anywhere in the world without compromising the integrity of your network.
- ♦ You will not have to buy any technology for the things I do. I will pay for it all myself.
- ♦ I will be very popular among your staff. They will quickly come to trust me and know that coming to me with their problems will always lead to a resolution.
- ♦ I need no training. I am ready to start today.

CORE COMPETENCIES: Virus Prevention and Removal; Anti-Spam Technologies; Network & Systems Security; Data Integrity/Recovery; Disaster Recovery Planning; Problem Solving; Firewalls and Intrusion Detection; Wireless Technologies; Internet Service, Bandwidth Monitoring and Optimization, Email Servers and Protocols, and Database Management.

PROFESSIONAL EXPERIENCE

Many Businesses of All Shapes and Sizes

2001 – Present

Outsourced Network Administration

I have been the last escalation resource for any and all I.T. related issues for dozens of business in dozens of industries. I have been instrumental in saving lost data, resurrecting servers, resolving email mysteries, and restoring order to chaotic networking environments literally around the globe.

Key Contributors to my success:

- I make sure everyone on my team has both real world experience and people skills
- I include the best technologies in the industry to make my service more effective.
- I never defer problem solving to other vendors. I stay with a problem until it is resolved.
- I do whatever is necessary to help those I work for succeed.
- I continually look for ways to improve and add more value to my position.

CONCLUSION

Please consider me for an I.T. position within your company. I have the ability to fill the needs of your I.T. department unlike any other applicant. I can provide many references for my work. To learn more about me please visit my website at www.atvantage.net.
